

Script from the video clip:

Hello I am Jane Sherwood and I am the head teacher at Icknield Walk First School. I know that choosing the first school for your child is an important decision and I hope that what we show you in this short film will help you to see what a wonderful experience our school can offer your child. We pride ourselves on providing a caring and nurturing environment, which means that we start from the needs and interests of your child and support them not only with their learning but also with their emotional development.

Our nursery provides a safe and happy space for children to play and learn. Your child will have a range of activities and toys to engage with and can choose to be outside or inside for the vast majority of the day.

We have two reception classes, each classroom is bright and welcoming and has outside and inside areas for the children to work and play in.

Throughout the school we teach the whole range of curriculum areas. We follow a creative curriculum which means that much of our teaching is done around a theme, this gives children an opportunity to become immersed in a topic and they use their knowledge to inspire their writing and their art. Our teachers are highly skilled, dedicated and passionate about making learning fun and motivational for your children. By the time they leave our school our children are confident and happy learners with a high standard of achievement.

Our hall is used for PE and assembly, where we all come together to share important events and maybe a story or two! Our kitchen staff provide a choice of 4 dishes every day, from sandwiches, to jacket potatoes, pizza and my favourite chicken pie.

There is breakfast club provision from 7.45am and after school and holiday club provided by Fair Play.

We are very proud of our school and hope that you enjoyed looking around. There is more information on our website and we would love to have the privilege of teaching your child. We look forward to welcoming you soon.

Scenes:

School entrance sign.

Head teacher in school hall.

Children in nursery garden and wild area.

Children playing in reception class garden and making a collage.

Children in the year 3 class being taught by their teacher.

Children working on computers.

A range of foods prepared for lunch.
