

eSafety Advice for Parents

The internet and related technologies, including mobile phones, gaming consoles, and social networks are becoming increasingly important in the daily lives of our children and have many positive benefits. They can be used both educationally and socially and are becoming part of a child's identity. Socially our children often use the internet for entertainment, interaction, and communication with 'friends'. Access to the internet can take place anywhere and at anytime so we need to make sure our children are able to use the internet safely. Many children are unaware of the risks for example by having many online friends (who could be strangers), uploading inappropriate images, viewing unsuitable content or even becoming addicted to the internet.

In school the Hertfordshire Grid for Learning provides for a safe and secure online environment for children in Hertfordshire LA schools. Many parents and carers do seek advice on how they can provide a similar environment for their children when accessing the Internet from home and how to help their children to develop safe habits when learning and playing online. Some of the advice about online safety is common sense but it's also important that parents and carers know how to use the technology and be aware of how their children are using the internet.

Information about online safety issues and how to '**Stay Safe**' can be found on the websites below. This is just a sample of websites that can provide parents with support and information. Once parents and carers have the background knowledge and understanding of eSafety they can decide what is right for their family.

- www.youtube.com/user/hertsict - The Hertfordshire ICT Youtube channel has a number of short eSafety videos
- www.childnet-int.org - A non-profit making organisation working directly with children, parents and teachers to ensure that the issues of online child protection and children's safe and positive use of the internet are addressed. Childnet International produce an online CD guide specifically for parents KnowITAll - www.childnet-int.org/kia/
- www.thinkuknow.co.uk - The Child Exploitation and Online Protection (CEOP) Centre has set up its own educational website which has been designed and written specifically for children, young people, teachers, parents and carers.
- <http://www.myguide.gov.uk/myguide/MyguideHome.do> - My Guide is a government website designed to help adults get started with using computers and the Internet
- <http://www.getsafeonline.org/> A beginners guide to using the Internet safely, including a quiz and some video tutorials about how to 'stay safe' on-line.

- <http://www.nextgenerationlearning.org.uk/At-Home/Internet-safety/> - The Next Generation Learning website provides some good advice for parents about Internet safety
- www.kidsmart.org.uk/ - Kidsmart is an award winning internet safety website for parents and those working with children. It has been developed by the children's internet charity Childnet International and has excellent information on many of the technologies used by children, with guidance on how to 'stay safe' online.
- www.bullying.co.uk - One in five young people have experienced bullying by text message or via email. This web site gives advice for children and parents on bullying.
- <http://www.chatdanger.com/> - This website is about the potential dangers with interactive services online like chat, IM, online games, email and on mobiles. It provides information, advice, true stories and games. The resource page also contains a number of links to other useful websites.
- <http://parents.vodafone.com/> - Vodafone have developed this website in conjunction with mumsnet. It is very accessible and provides information and guidance to parents with understanding their child's digital world and get more involved. There is even an on-line test to see how much you know!

The internet is an exciting and fun place for adults and children to use and explore educationally and socially. The challenge for parents, carers and teachers is to make sure our children are aware and understand how to be safe when using the internet and related technologies.
